PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with practical exposure to software development, full-stack development, and collaborative project work through internships and independent projects. Skilled in Python, JavaScript, React.js, Node.js, Express.js, REST APIs, and SQL/databases, with working exposure to Git/GitHub, SDLC, and Agile/Scrum collaboration. Detail-oriented, with working knowledge of requirement analysis, data management and accuracy, and Power BI reporting. Comfortable with operational coordination, stakeholder communication, cross-functional collaboration, documentation, issue tracking and resolution, and process improvement.

CORE COMPETENCIES

Programming & Development: Python, JavaScript (ES6+), React.js, Node.js, Express.js, REST APIs, HTML5, CSS3, Requirement Analysis
Databases: SQL, MySQL, MongoDB, Data Management and Accuracy, Information Management
Practices & Tools: Git, GitHub, SDLC, Agile/Scrum, Problem Solving, Debugging, Team Collaboration, Postman, VS Code, Attention to Detail
ServiceNow: ServiceNow Administration, Flow Designer, Workflow Automation, Automated Test Framework (ATF)
Data & AI: Snowflake, Power BI, Data Modelling, LLM API Integration, Prompt Engineering, AI Applications, RAG Concepts
Operations & Coordination: Operational Coordination, Process Coordination, Stakeholder Communication, Cross-functional Collaboration
Documentation & Reporting: Documentation and Record Keeping, Reporting and Administrative Support, Process Improvement
Workflow & Support: Workflow Management, Issue Tracking and Resolution, Service Request Handling
Other: WordPress CMS, Microsoft Office (Basic Working Knowledge)

EXPERIENCE

Infosys Springboard 6.0 Virtual Internship — Frontend Developer (Group Project) *2026*
Blockchain-Based Trade Finance Explorer

- Translated functional requirements into working UI components, clarifying ambiguous specifications with the team before development.
- Built responsive, reusable interfaces in React.js and JavaScript, and coordinated feature branches within an Agile team using Git.

ServiceNow Virtual Internship Program — System Administrator Intern *2026*

- Studied enterprise process automation using Flow Designer, mapping business workflows into structured, repeatable platform processes.
- Gained working knowledge of platform administration and the Automated Test Framework (ATF), including requirement-to-test traceability.

PROJECTS

COVID-19 Global Analytics Dashboard — Individual Project *2026*
Snowflake • SQL • Power BI • Data Modelling

- Built a data analytics dashboard to understand COVID-19 trends across countries and time periods, using Snowflake as the cloud data source.
- Used SQL to clean, join, and shape datasets, and Power BI to design interactive visuals tracking cases, recoveries, and fatalities with regional and time-based analysis.

AI Career Mentor — Individual Project *2026*
React.js • LLM APIs (Gemini/OpenAI) • Prompt Engineering • REST APIs

- Built an AI-powered career guidance web application delivering personalized career roadmaps, skill-gap analysis, and interview preparation support.
- Integrated LLM APIs through REST endpoints and designed reusable prompt templates/structures to enforce more consistent, accurate responses.

RentEasy — Property & Rental Management System — Team Project *2026*
React.js • Node.js • Express.js • MongoDB • SQL Concepts • Git

- Contributed to frontend and backend development of a rental management application supporting tenants, landlords, and agents with role-based dashboards.
- Worked on data schemas and query logic for listings and tenancy data, collaborating within an Agile team using Git for version control.

Medical Recruitment Business Website — Professional Project *2026*
WordPress CMS

- Understood client requirements for a healthcare recruitment business and delivered a production-ready website with customized layouts/themes and recruitment inquiry forms.

ACHIEVEMENTS & CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- Agile Scrum Certification — Infosys Springboard
- 2nd Prize — JNTU Hackathon: recognised for technical execution on the CryptoVault-3D AI group project
- Cisco — Python Essentials | Infosys Springboard — Python Foundation, Programming Fundamentals with Python, Basics of Python

EDUCATION

B.Tech in Computer Science and Engineering — K.S.R.M College of Engineering *2023 – 2027*
CGPA: 8.66 / 10.0

Higher Secondary Education (MPC) — Sri Chaitanya Junior College *2021 – 2023*
Score: 923 / 1000
